Caludon Castle School Careers Bulletin

Monday 19 June 2023

If you have any questions about any of the information in this bulletin, please contact me by email.

Careers advisor

Carole Foster, our Careers Advisor, is currently making appointments to see Y10 and Y11. She is also happy to see students from Y12 and Y13 who are in need of advice.

Let your year leader or Ms Hutchinson know if you want to see her. Post-16 students can email the pastoral office directly to ask for an appointment if they wish.

Job of the Week, YouTube video series

Virtual Work Experience programmes with world leading employers

It's Jo here from Springpod! I just wanted to share a few more Virtual Work Experience opportunities with you. These opportunities are perfect for you and can seamlessly align with your study plans. The best part is that they are self-led, so you won't need to worry about missing any lessons.

One of our remarkable programmes is Support Office Careers with Specsavers, which offers a wide range of roles within the Specsavers organization. You can explore fascinating opportunities in technology, IT, marketing, finance, and even law.

Additionally, we have an engaging programme called Building Your Future with JLL & Meta. This immersive experience introduces you to the dynamic world of real estate, covering everything from sustainability practices to exploring the possibilities of using the Metaverse in this industry. Real estate is all about creating innovative spaces where people can thrive.

Last but not least, we offer the Step Inside Accountancy - ICAEW Insight Event. Through this programme, you will be introduced to the sector as well as the different career paths you could take. You'll hear from the experts, take part in quizzes and activities, and discover skills you didn't know you had! You'll also get the chance to question current professionals to find out more about application processes and their top tips.

If you wanted to see all of our available programmes you can do so here!

Additional opportunity

Our STEM Virtual Work Experience opportunity, **exclusive to students in Gloucestershire or the Midlands area**, is still accepting applications until the 10th of July. It will be available to access from the 17th to 30th July.

This programme covers a number of different STEM related career paths within Severn Trent, giving you more insight into which pathway best suits you!

Each programme involves around 10 hours of activity, which can be completed flexibly at times that suit you, so as not to take away from your other commitments.

And most importantly, it's **completely free for you to apply and complete.**

Please apply to the programme before the application deadline closes on the 10th July.

https://www.springpod.com/virtual-work-experience/sustainability-support-and-stem-work-experience

These experiences are so helpful as you make important decisions about your next steps. They are easy to access and flexible to fit alongside any study commitments and you will never have to miss lessons to complete them.

Every experience is carefully planned with engaging activities, pathway information, and up-to-date labour market information from employers who also share insight into day-to-day roles.

Higher Apprenticeship - Environmental Protection Team

We are currently recruiting for a higher level Environmental Health Apprenticeship in the Environmental Protection Team. The closing date for applications is Sunday 25th June.

Apprenticeship summary

The successful candidate will work alongside experienced staff to gain knowledge and skills related to this role and will be given the opportunity to build a career in Environmental Health whilst undertaking an Environmental Health Practitioner Degree Apprenticeship over 4 years delivered by The University of Wolverhampton

Protecting the health of the public is a key principle underpinning the work of Environmental Health Officers (EHO), whether that is investigating an accident at work, noise problems, food poisoning, housing issues and environmental pollution. With very strong links to climate change and to public health, the daily work of an Environmental Health Practitioner is so varied it is difficult to describe in one paragraph. Typical duties could include investigating complaints about noise, monitoring air pollution, inspecting food businesses for hygiene, investigating accidents at work, serving legal notices on landlords to remedy poor housing conditions, or a huge variety of other work.

We are looking for someone who is ambitious, keen to learn, interested in the subject area and with the commitment to see it through.

In return **we will fund the degree** at The University of Wolverhampton, pay a salary (£19,640 per annum), pay for professional membership of the Chartered Institute of Environmental Health and pay for reasonable travel expenses to university.

To apply and for further details please visit: https://careers.coventry.gov.uk/jobs/job/Environmental-Health-Officer-Apprentice/7748

If you have any questions regarding the vacancy, please e-mail apprenticeships@coventry.gov.uk

EDT Insight into University Experience

Hello Student,

Have you ever wondered what it's like to go to university? Are there lots of questions about university going around in your head? Would you like to know what it's like before you take the leap and apply for a STEM university degree?

Well now you can - with our Industrial Cadets Insight into University virtual experience you get the chance to try out multiple STEM degree subjects at various leading universities across the UK.

This course is like no other! Not only can it help you decide which degree course might be right for you and enhance your UCAS application. With the mix of live sessions, recorded lectures and hands-on practical STEM activities and projects set by leading UK universities and global STEM companies, you will have a unique opportunity to access all the amazing content in one place, pick-and-choose subjects that interest you and do as many as you wish at your own pace over the summer.

Applications remain open until 19th June, - don't miss out and apply today!

To find out more please visit our website https://www.etrust.org.uk/insight-into-university

We look forward to receiving your application.
