Caludon Castle School Careers Bulletin

Monday 8 January 2024

If you have any questions about any of the information in this bulletin, please contact me by email.

Careers advisor

Carole Foster, our Careers Advisor, is currently making appointments to see Y11. She is also happy to see students from Y9 to Y13 who are in need of advice.

Let your year leader or Ms Hutchinson know if you want to see her. Post-16 students can email the pastoral office directly to ask for an appointment if they wish.

Job of the Week, YouTube video series

Science Writer - to find out more click here: https://www.youtube.com/watch?v=1bJu9KkSpJg

There are many other jobs on the same YouTube channel including:

Acoustician; barista; carpet fitter; deckhand; ecologist; food technologist; geophysicist; holiday representative; insurance broker; joiner; kitchen assistant; locksmith; market research analyst; network engineer; order picker; parking attendant; risk manager; restaurant manager; social worker; transport planner; university lecturer; volunteer coordinator; web designer; YouTuber; and zoologist.

National Apprenticeship Week, 5-9 February 2024

We will be running some specific events at Caludon for National Apprenticeship Week.

On Monday 5th February we will host an online information evening, starting at 6pm, for students and parents about apprenticeships. We will have a talk from ASK – Apprenticeship Support and Knowledge – about apprenticeships in general. This will cover all levels of apprenticeship, so will be useful to any student considering an apprenticeship, no matter your current year group, and will also be useful for your parents. We will also hear from an apprenticeship provider and some current apprentices. There will be plenty of time to ask questions during the session. If you or your parents would like to attend, please email Ms Hutchinson for the Zoom link.

On Tuesday 6th February, we will be taking a small group of students from years 10 and 11 to the Coventry Schools Apprenticeship Show, where they can meet and talk to a range of apprenticeship providers. Attendance is by invitation only, as there are a limited number of places per school.

As other opportunities become available, we will post them in this bulletin.

Careers Fair, 21 February

We are running our second Careers Fair of the academic year on 21 February, both during the afternoon and alongside the post-16 parents evening.

During the afternoon, students from year 10 and year 12 will be able to visit the various stalls to gather information about potential career routes. From 3.30pm. the fair will be open to all students and parents, alongside the post-16 subject evening.

Organisations confirmed so far:

1872 Prifysgol Aberystwyth University	De Montfort University Leicester	jobcentreplus / DWP Department for Work and Pensions	Future Pro

Not going to University? Apply to Roche's apprenticeship programmes

At Roche we are interested in bringing new talent into the company to upskill and learn with on-the-job training in our Apprenticeship Programmes at Level 3 and Level 4.

We believe that any talent who is able to develop technical expertise and understanding of our business from the beginning of their careers has the potential to grow and succeed in our company.

Explore our open opportunities and apply before the 28th of February 2024

Advanced Technical Engineering Apprenticeship: Level 3 MOET

We are looking for A level students (or equivalent qualification) who are keen to move into a career and not go to University. We will require Maths & English GCSE at Grade 4 or above.

In this programme you will develop academic and vocational training in Electrical, Electronic and Mechanical Engineering working in the field in the Clinical Laboratory environment with our NHS and Private Partners.

You should have a curiosity of how things work and a passion for finding solutions to problems, this will be accompanied with a growth mindset and a commitment to ongoing personal development.

Apply Now

Procurement Apprenticeship: Level 4

We are looking for candidates who are 18+ with GCSE 9 – 4 (A – C) Maths and English & two A Levels (or equivalent), or who are 21+ with at least two years of business experience.

In this programme you will be working in core procurement activities from category management, strategic and operational sourcing, supplier management, content strategy definition, and execution.

During this two-year apprenticeship, you will work towards a fully funded Chartered Institute of Procurement & Supply Level 4 Diploma while gaining valuable "on the job" experience and mentoring from our talented experts at Roche.

Apply Now

Join the NAO's Apprentice Accountancy Training Scheme!

Are you looking for a role where you can make a difference to the nation? The **National Audit Office's (NAO) Apprentice Accountancy Training Scheme** is open for applications until **Monday 18th March 2024 (23:59)** - you don't want to miss this.

The NAO is the UK's independent public spending watchdog. They work for, and for the good of, everyone in the country. They're highly influential, supporting Parliament in holding the government to account and improving public services through their high-quality audits.

Why you should apply...

- Achieve a **fully-funded ACA qualification**, setting you to up to reach a salary of £58,000 per year depending on your location
- Have a **nationwide influence** as you undertake varied work with an unrivalled network of high-profile stakeholders
- Enjoy a **supportive and social peer network** and work with teams and colleagues who are excited to support your development

If you're ready to begin your journey with the NAO, click below and apply today.

Medic Mentor: Medical Extracurricular Opportunities

We have received inquiries from students seeking guidance on enhancing their medical applications. It brings me great joy to share with you a range of enriching extracurricular opportunities aimed at bolstering your skills and providing unique experiences.

For students in years 10-13, we present the following avenues:

-Engage in Essay and Art Competitions, with publishing and research opportunities. This month is centred around the theme "Lifeline," and closes on February 1st.

-Enrol in the Medical Leadership Programme to develop leadership skills and access valuable mentoring opportunities.

-Join the Virtual Medical & Dental Society Committee or Wider Reading Society's Committee for leadership, presentation, and extensive reading opportunities.

-Explore Virtual Work Experience to gain insights into the medical or dental profession.

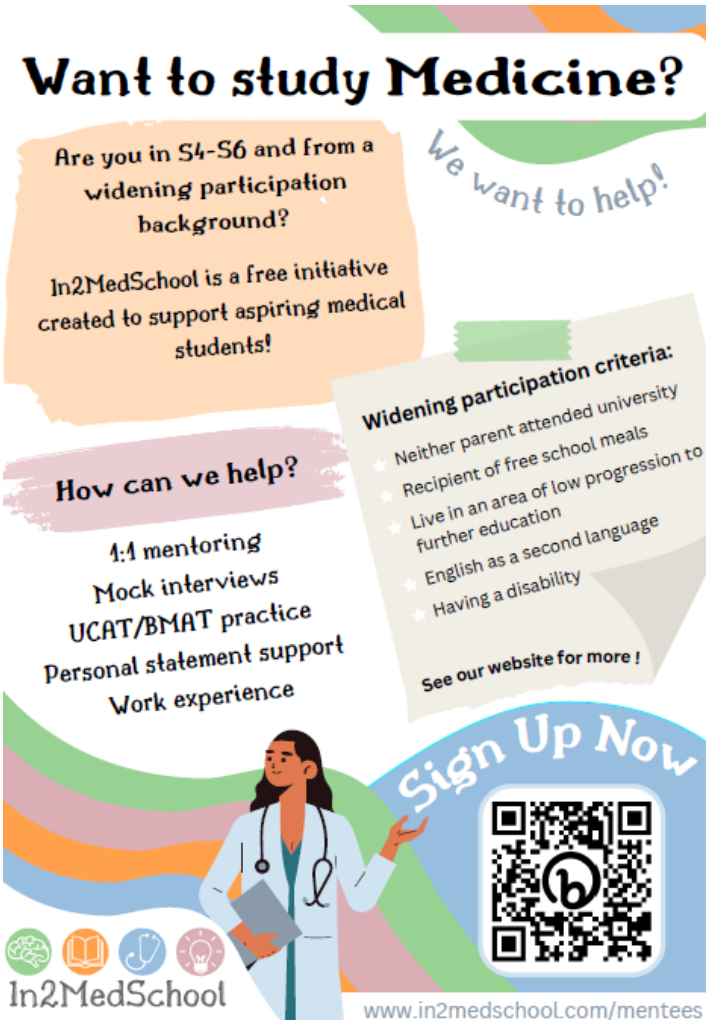

Here is a list of extracurriculars that you can access for free to help you stand out at interviews and in your personal statement: https://medicmentor.org/medical-extracurricular-activities/

These extracurricular opportunities accept applications throughout the holidays. By signing up for a free student portal, you can access these opportunities:

https://medicmentor.org/the-medic-mentor-portal-2/

These accomplishments are national medical achievements, with many students securing coveted spots in medical schools through these extracurriculars. Explore inspiring stories of previous student's success stories: https://medicmentor.org/successful-student-journeys-reviews/

Note: Please record an answer for all the questions before submitting

Result - Correct

Overall Score - 73%

Strengths 💪

The student exhibits a clear understanding of the principle of informed consent and emphasizes its significance in respecting patients' autonomy and legal protection for medical staff. The answer touches upon the key component that informed consent is essential for patients to make educated decisions regarding their health care. Additionally, the student correctly identifies circumstances where obtaining consent might not be possible and provides relevant examples to these situations.

Things to Improve 🎯

The student could improve by elaborating on the imperative role of clear communication during the process of obtaining informed consent, and by providing more nuanced examples of the ethical and legal repercussions when consent is not properly obtained. It would also be beneficial to discuss the delicate balance between respecting patient autonomy and ensuring their safety in situations where informed consent cannot be obtained. Furthermore, explaining the concept of 'implied consent' in emergencies and the role of advance healthcare directives could provide additional insight.

Based on real MMI / panel questions

- All stations and questions have been written based on previous actual medicine interviews

Undergraduate Tech Degrees in Character Creation, Games Design and Technical Art

ESCAPE STUDIOS

Are you interested in a career in the games industry?

Then our undergraduate degrees in Character Creation, Games Design and Technical Art could be perfect for you. Did you now that Technical Artist and Games designer are among the most sought-after job titles in the games industry? (Games Jobs Live, 2023)

We've designed these programmes with experts from Creative Assembly, Framestore, nDreams, PlayStation, LondonStudio, and Rocksteady Studio, so you'll graduate with the technical skills that are in demand from creative organisations around the world.

Check out our **Online Open Day** on Saturday 13th January to learn more about our courses from our expert tutors.
Date: 13/01/2024. Time: 10.30am-12.30pm

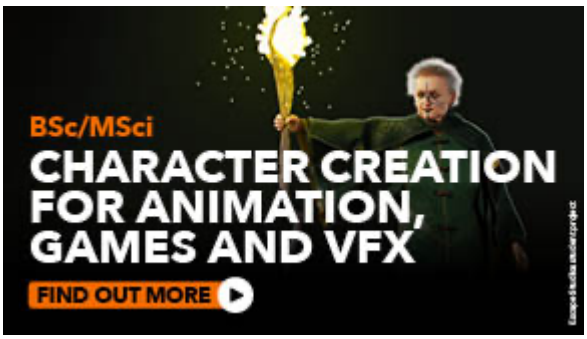

BOOK NOW

Designed with and for industry

Discover our degrees from the perspective of Framestore Technical Artists, Juriaan Van Váli and Fabrizio Bergamo, Dean/Director of Interactive and Real Time, Simon Fenton, and Head of Creative Technology, Michael Davies.
They highlight the growth industry demand for Technical Artists, and break down the skills required to break into the industry.

LEARN MORE

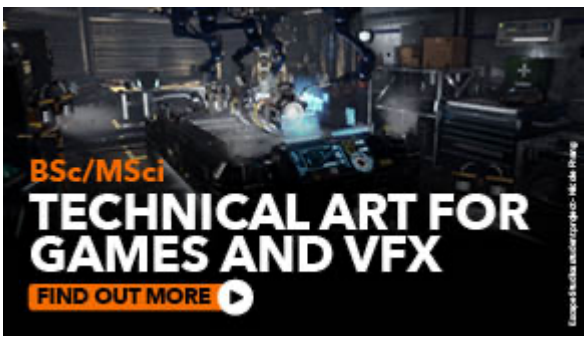

Character Creation

Do you have a passion for storytelling and creating characters with rich backstories that are part of vast and detailed worlds? Then this cutting-edge course is the one for you.

On this degree you'll bring characters to life while working at all points in the production pipeline, from concept to implementation, developing models, character rigs and FX, including simulations of muscles, cloth and fur.

READ MORE

Technical Art

If you love video games, movies and animations, have a passion for problem solving and enjoy being part of a team, then this degree is for you.
You'll create tools, scripts and FX simulations, develop graphics and solve problems for teams in games, VFX and animation sectors, including VR and virtual production.

CHECK IT OUT

Games Design
Like the idea of designing video games from concept to implementation? On this degree you'll be developing gameplay, levels and environments to produce engaging play experiences.

You'll learn core design practice through to game engines, UI (user interface) and UX (user experience) as well as narrative and development pipelines.

Medic Mentors 2024 Access to Free Resources

Happy New Year! As we embark on a new year, I am thrilled to present an incredible opportunity for aspiring medical students to enhance your medical applications through a range of free resources.

Following your attendance at our UCAS **Get Into Medicine** conference, you can unlock a wealth of support:

- Gain valuable free medical work experience
- Schedule free 15-minute Zoom appointments with doctors and medical students
- Access free medical extracurricular activities to stand out
- Explore opportunities to apply for medical school scholarships and awards
- Develop a comprehensive understanding of the application process to become a doctor

My goal is to assist you and your parents in navigating the path to medical school successfully and making the most of the additional free support we have in place.

Registration Link for the **FREE UCAS conference and medical work experience**:
https://airtable.com/appgXnyzN5ZD9Iwk6/shry7MZYtt3MGPjvO

You and your parents will have the opportunity to learn about personal statements, entrance exams, interviews and meet some of our successful students to learn from their experiences. Following the conference you will instantly be enrolled onto the free virtual medical work experience programme (with access to speak to doctors and medical students alongside).

Dates: Sunday 7th January 9:30am - 3pm
Saturday 13th January 9:30am - 3pm.

Sunday 14th January 9.30am – 3pm.

All aspiring doctors in years 10-12 are invited to register.

These conferences offer tailored advice for medicine, covering a range of crucial topics:
- Tactically choosing universities
- Personal statements
- UCAT
- Medical school interview skills
- Medical Leadership Programmes
- Awards Programmes
- Extracurricular activities
- Work experience
- Building a CV
- Applying for scholarships

Spaces are limited, so you should register as soon as you can using the link below. For this reason, we kindly request that you only book one conference.

You and your parents can register for free here:
https://airtable.com/appgXnyzN5ZD9Iwk6/shry7MZYtt3MGPjvO

Here's how the day will run:

9:30-10.00 Registration
10.00-11:00 Quick introduction to Medic Mentor, overview of the day, competition ratios, application timeline, Awards and Scholarships
11:00-11:15 Break
11.15-11.45 Introduction to the UCAS application form and entry requirements
11.45-12.15 Interactive CV building exercise and exclusive access to leadership, research, presentation, publication, prizes and scholarship opportunities
12.15-12.30 Top tips form a successful applicant (medical student)
12:30-12:45 Break
12.45-13.30 How to write the perfect personal statement
13.30-13.45 Break
13.45-14.10 Entrance exams - how to do ace the UCAT
14.10-14.30 How to prepare for Medical School interviews
14.30-15.00 Top tips form a successful applicant (medical student) and next steps

Our doctors and medical students look forward to welcoming you at the conferences and you will join our network of successful students who attended these programmes over the last ten years:
https://medicmentor.org/successful-student-journeys-reviews/

Government Economic Service Degree Apprenticeship Programme 2024

Apply before 11:55 pm on Monday 12th February 2024 (60 positions available).

Location
Birmingham, Bristol, Coventry, Croydon, Darlington, Fareham, Leeds, Liverpool, London, Manchester, Newcastle-upon-Tyne, Nottingham, Oxford, Salford, Sheffield, Wolverhampton, York

About the job

Job summary

As an apprentice economist, you will be joining a community of over 2000 economists across more than 30 organisations across the Civil Service.

The range of opportunities open to you through the Government Economic Service Degree Apprenticeship programme (GES-DAP) is huge. You could be working in government departments responsible for business, energy, justice, education, or the environment.

You will have the opportunity to improve the world you live in – working on issues like:

- How government can support small businesses to grow.
- How government can support UK businesses to compete in a changing world.
- How government can support people to kick-start their lives after time in prison.
- How government can act to protect the environment .

Economics and economists are contributing to the very biggest decisions that the country faces. They help senior leaders make the best decisions– by providing them with the analysis and advice they need.

Please see the attached candidate pack for more information or visit our GES-DAP website Government Economic Service Degree Level Apprenticeship Programme.

Job description

As an apprentice economist, you will be studying for a degree in economics whilst putting your economic learning to direct use in the workplace by influencing high profile public policies with the best possible economic analysis. This is an exciting time to be joining the Civil Service. With continuous support you will prepare vital briefings for ministers or the public, provide advice on policy options, and ensure the quality and appropriate use of economic statistics.

Economics is the study of allocating limited resources between unlimited wants. The Government Economic Service provides rigorous, relevant, and impactful economic analysis to inform government decisions, for example, negotiating new trade deals, supporting regional growth or managing the UK's debt.

A Government Economic Service (GES) apprenticeship will take the form of four years undertaking the Level 6 Professional Economist standard, including a BSc Economics Degree. At the same time, you will be working in a team of economists and other analysts in a government department, supported by a manager and a buddy.

As part of your degree, your learning will be a mixture of online and face-to-face teaching with a residential week each year at the University of Kent in Canterbury. The department you work in will make any necessary travel arrangements for you to attend in-person events with the University of Kent from your office location.

The BSc Economics Degree will be comprised of:

- Microeconomics; how individuals and firms make decisions, interaction of supply and demand.
- Macroeconomics; how the economy works at a national and international level.
- Econometrics; the use of data to test theories and evaluate changes in government policies.

Working as a member of the GES involves the development and use of:

- Quantitative skills: manipulating and presenting data.
- Writing and presentation techniques: communicating economics clearly and succinctly to senior officials and ministers.

- Applied economics skills: using economic insights and techniques to inform decisions on anything from the environment to transport.

Successful completion of the End Point Assessment will guarantee you permanent employment in the GES.

Further details here

Upcoming live broadcasts – free from Speakers for Schools

These talks were originally set up for teachers to access with their classes, but are now open to individual students as well. You can register directly for talks by selecting 'student' rather than teacher.

UPCOMING TALKS

DATE	SPEAKER	INFO
Wednesday 10th January **2-2:45pm**	**Jimmy's Jobs Podcast: Jimmy McLoughlin, Podcaster & Former Special Adviser to the UK Prime Minister** **KS3-5**	Join us and Jimmy McLoughlin OBE who is a former Downing Street adviser on business and entrepreneurship. He now runs his podcast/YouTube channel, Jimmy's Jobs of the Future where he interviews people, everyone from Ben Francis of Gymshark to the Manager of the Sidemen. Find out what goes on behind the scenes and what the future job market might look like. Click here to register
Thursday 11th January **2-2:45pm**	**Working As A GP Registrar And Sustainability In NHS: Dr Veena Aggarwal, RCGP National Sustainability Group - Vice Chair** **KS4-5**	Discover Dr. Veena Aggarwal's journey as a GP Registrar and her dedication to lessening the NHS' environmental impact. The Air League stage 2

Some students attended online talks about various aviation related jobs during PD lessons last term. This was stage 1 of a 3-stage programme, with fewer students taking part each time.

Stage 2 is aimed at those who want to go into aviation related jobs. We have up to 100 places on e-learning modules by different companies about:

- Cockpit Design (BAE Systems)
- Cyber Security (Civil Aviation Authority)
- Airline Operations (British Airways)
- Drones and RPAS (Eagle Eye Innovations)
- Pilot Training on engines (Bristol Ground School)

You can access these modules in school and at home, throughout a whole term. Each module has a test with an 80% pass mark. You can retake the tests as many times as you want. You will receive a digital record of completion on passing the tests.

Stage 3 is available to some of those who complete Stage 2 - those who show the highest motivation - and will include workshops or experience days with aviation companies, including even the opportunity to fly.

Air League also offer 120 scholarships nationally each year for potential pilots and engineers.

If you're interested in being involved in Stage 2, let your tutor know, who can pass your name and tutor group on to Ms Hutchinson, or email Ms Hutchinson now.

Doctors Live – weekly virtual dissection programme

DoctorsLive are a group of doctors, passionate about inspiring the next generation of students into Medicine, Nursing, and other Allied Health Professions. We are thrilled to announce that our popular weekly Anatomy Club is back this year.

The **Anatomy Club** is a 3-month after-school programme covering all 12 organ systems. The sessions run for 2 hours weekly, every Tuesday evening, led by two practising doctors. We cover the body systems in a fun and interactive manner by dissecting our virtual anatomy model. We also cover diseases affecting the organ system and try to solve anonymised real-life patient cases together.

The sessions are aimed at any students interested in Science and Healthcare who want to learn something outside of the school curriculum. Our passion is to inspire you to learn about human science in an engaging and affordable manner. The course suits all students aged 13 and above. Certificates will be provided for participation. Below are some further details:

DoctorsLive - Virtual Anatomy Club Weekly (February 2024 to April 2024) - Live Every Tuesday 6pm-8pm

1. Learn about the fascinating workings of the human body from the comfort of your home
2. Cover all 12 organ systems
3. Solve real-life patient cases, including history taking and anonymised scans
4. Live virtual operations - showing step by step how common surgeries are carried out
5. A chance for students to interact with practising surgeons and doctors
6. Each live session is recorded and can be accessed anytime

The entire three-month program, including handouts, recordings and certificates, is priced at **£59 per student**. For more information and to enrol, please visit the link below:

https://doctorslive.co.uk/anatomyclub/

Please note places are limited and are allocated on a first-come, first-served basis.

Medic Mentors Reapplication conference for those who haven't yet found success

For students who haven't found success in applying for a medicine course this year, I invite you to the Free Reapplication Get Into Medicine conference:

Saturday 20th January, 9:30am - 2pm.

Find out more about the Free Reapplication Get Into Medicine conference here:
https://medicmentor.org/what-if-you-dont-get-into-medical-school-in-the-uk/

Many successful doctors have faced rejection before finally being accepted into medical school and we are hosting a conference to tell you exactly how to do it!

This conference is for students in year 13 reapplying to medicine. Reapplicants have many options available

to them, and we are here to help you get there. The conference will cover accessing university feedback, HPAT, UCAS Extra and UCAS Clearing, studying medicine in Europe, and taking a gap year.

Register here: https://airtable.com/shrfyUEK94gAcgKa1

The application process can be overwhelming, and we understand that some capable students may be discouraged. Our mission is to assist aspiring doctors in achieving their dreams. We stand by you every step of the way.
